

MaintiMizer just got more powerful and portable with the Mobile MaintiMizer Work Request app.

Now, everyone in your organization has the power to notify your maintenance team of equipment breakdowns, property damage, asset malfunctions or anything else your team needs to be aware of – without a user license or a computer with MaintiMizer.

No more searching for maintenance techs or finding a workstation to make a Work Request. Just open the app, describe the issue and location, and submit.

Voila – now your entire organization is part of the maintenance team.

- 
- Pricing starts with a one-time \$1200 for system setup, and 30% discount on licensing!
  - Available now through October 31st
  - Anyone in your organization can submit a work request via the Mobile MaintiMizer Work Request App – no need for extra licenses
  - Create Work Requests from just about anywhere
  - Work Request Notifications
  - Notify Maintenance Team of new Work Requests
